

HAND RECRUITING GAME

Ask every guest to draw the outline of their hand on a piece of paper. Then ask them to write on each finger one thing they would do if they had an extra \$500 every month. Then begin with the first guest – ask her to name one thing that she wrote down – tell her and any other guest that had that same thing to color in the fingernail on that finger. Continue around the room letting each guest share one thing at a time – the first person to have all of their fingernails “painted” is the winner. Give her a nice prize and a smaller prize to everyone else.

Then close the game with “ You know Tupperware consultants holding one party a week average making \$400- \$500 a month. Why not give it a try – we can get you started tonight!”
