General information

Ergologics™ Wheel Power

Cutting a pizza or dough will be as easy as cutting butter thanks to the Ergologics Wheel Power! The Ergologics™ Wheel Power is the one and only pizza tool and designed to be a robust, resilient and long lasting kitchen tool.

This Ergologics™ Wheel Power has two blades, one to cut dough the other to cut pizza. This safe all in one solution allows you to enjoy the maximum taste of your pizza with the least effort!

Key features

- This pizza tool has two efficient blades – one to cut pizza and pastry dough

Pizza Cutter:

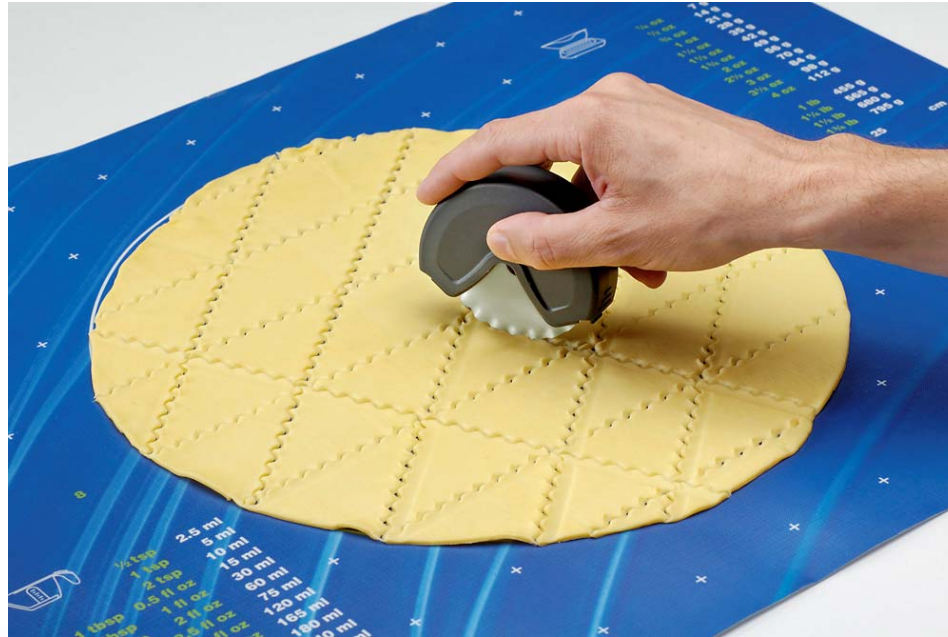

- Use the pizza cutter to slice evenly and quickly through oven hot pizza. Cut the perfect slice every time!
- Whether you prefer thick or thin pizza this tool cuts efficiently and cleanly giving perfectly sliced pizza without those very unattractive, rough edges.

Key features

Dough/Pastry Cutter:

- Use the dough and pastry cutter to cut pizza dough into a variety of shapes
 - e.g. cut pizza dough into perfect squares or circles or cut pastry and biscuit dough into creative shapes.
- To make attractive patterns on biscuit surfaces, use the dough cutter to score shortbreads and other biscuit dough before baking

Key Features

- Both blades are made from **high quality material** and are very **durable and long lasting**.
 - The metal blade is designed to be stay-sharp and is resistant to rusting and corrosion.
 - The blades automatically cut dough, pastry and pizza with the first roll.

Key Features

- The Wheel Power is **very ergonomic to use with a large, smooth contoured handle.**
 - The handle has a non-slip grip and fits perfectly in your hand. This makes cutting dough and pizza very easy and ensures blades roll forward effortlessly.
 - The handle design allows the user to cut confidently without extra strength and protects hands whilst cutting.
 - Thanks to the thumb rest on the handle you have extra control and direction while cutting
 - Also the circular drum to cut pastry dough is very ergonomic to hold and to use

Key Features

The Ergologics™ Wheel Power is a **very safe, simple and solid pizza cutter** suitable for all the family to use.

- The wheel power clicks together and pulls apart very simply and quickly.
- It doesn't require strength to operate and glides easily through dough and pizza.

Key Features

- You can **store** the Ergologics™ Wheel Power in a **compact and safe way**.
 - During storage, the blades are fully enclosed and protected. This ensures blades are not damaged in the drawer and fingers are not cut when reaching into the drawer.
 - The Ergologics™ Wheel Power is stored in a compact way - conveniently together and easy to find.

Usage

- **To open:** hold the Ergologics™ Wheel Power with one hand around the handle and the other on the circular drum. Pull the wheel power into two pieces by pulling the circular drum away from the handle.

Usage

- **To close:** slide the pastry wheel next to the metal blade and clip the circular drum back into place in the slots foreseen in the handle

Cleaning

- Always separate the Ergologics™ Wheel Power into two parts when cleaning in the dish washer.
- Dry the Ergologics™ Wheel Power parts thoroughly before clicking together and storing.

Care

- To avoid the metal blade becoming blunt, do not use the pizza wheel on any Baking Stone.
- Do not use the metal blade on any Silicon Forms or on Silicon Baking Sheets or on the Pastry Sheet.
- The dough and pastry blade can be used on Tupperware's Pastry Sheet, silicone baking sheet and silicone baking form.
- When using the pastry wheel, avoid letting the circular drum touch dough.
